

1. Getting Started: Register your school on StatInput

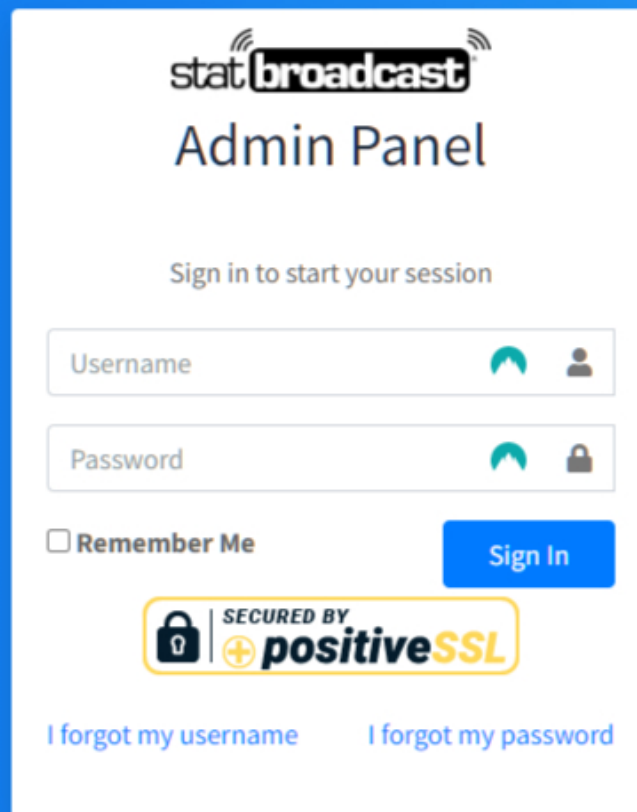

This guide will walk you through getting started using StatInput, including registering your school/group to use StatInput and creating a primary user.

You will only need to complete these steps the very first time you use StatInput. After that, you can go directly to StatInput and log in.

Log in to the StatBroadcast Admin Site

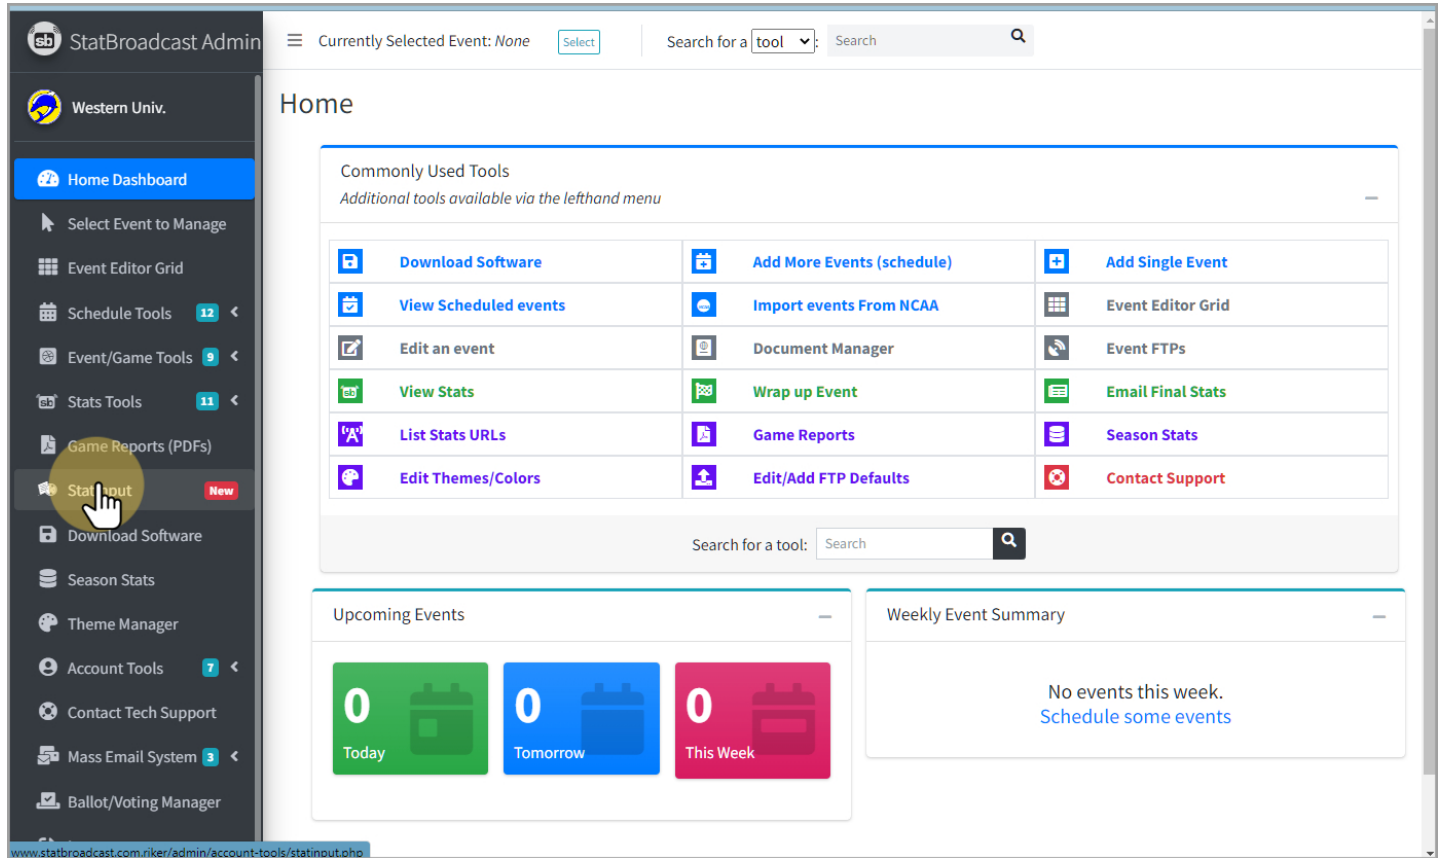

Navigate to <https://admin.statbroadcast.com> and login using your school's StatBroadcast login credentials.

Please note that once you have registered on StatInput, you will use your newly created StatInput login to log in to StatInput and will not need your StatBroadcast login again.

The image shows the StatBroadcast Admin Panel login interface. It features a white login box centered on a blue background. At the top of the box is the 'statbroadcast' logo with signal waves. Below the logo is the text 'Admin Panel'. Underneath is the instruction 'Sign in to start your session'. There are two input fields: 'Username' and 'Password', each with a green signal wave icon and a user icon. Below the 'Username' field is a checkbox labeled 'Remember Me'. To the right of the 'Password' field is a blue 'Sign In' button. Below the input fields is a security badge that says 'SECURED BY positiveSSL' with a padlock icon. At the bottom of the box are two links: 'I forgot my username' and 'I forgot my password'.

Select 'StatInput' from the left-hand main menu.

The screenshot shows the StatBroadcast Admin interface. On the left, a dark sidebar menu lists various tools. The 'StatInput' option is highlighted with a yellow circle and a hand cursor icon. The main content area is titled 'Home' and features a 'Commonly Used Tools' section with a grid of 12 tool buttons. Below this, there are sections for 'Upcoming Events' (showing 0 events for Today, Tomorrow, and This Week) and 'Weekly Event Summary' (showing 'No events this week. Schedule some events').

Enter your email and name and click Register

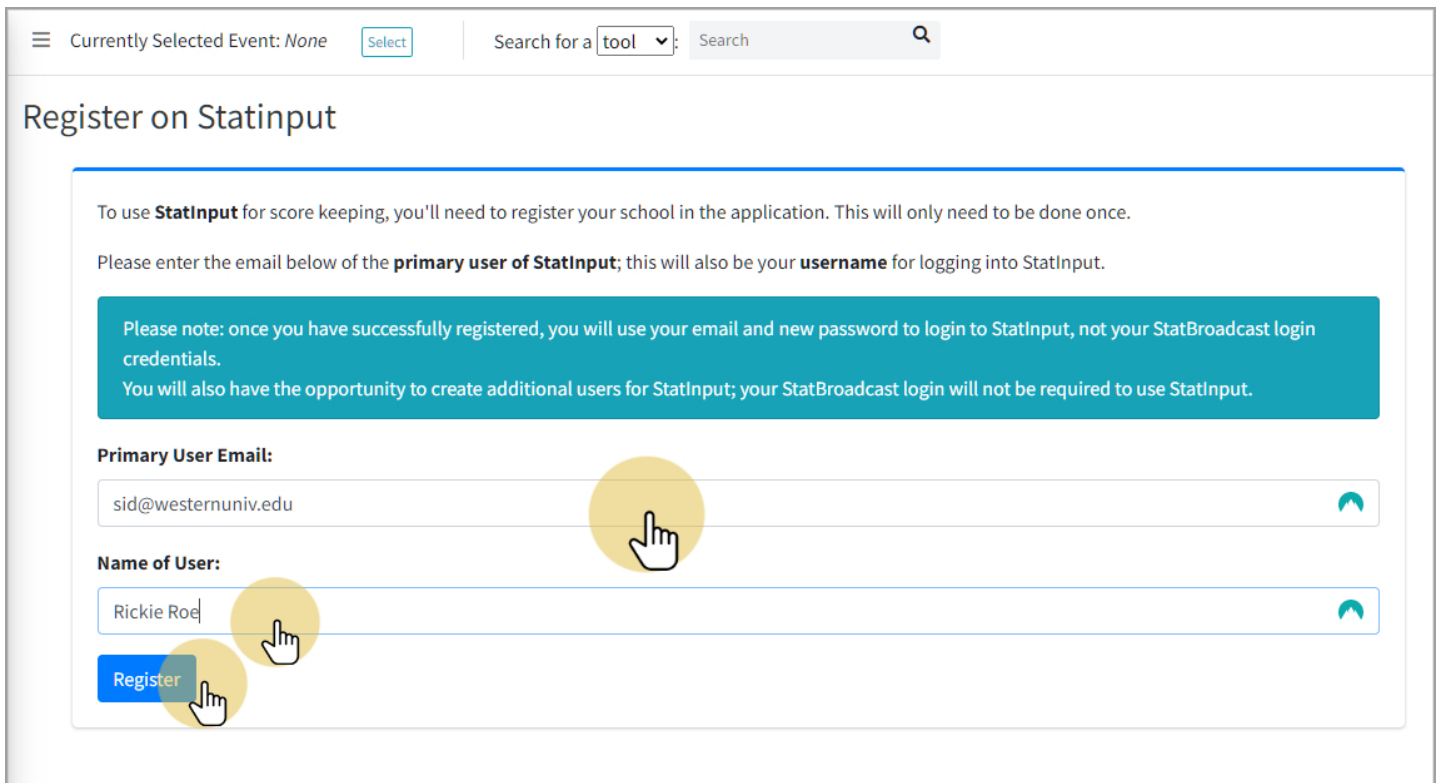

Your email address will become your username for StatInput.

Once you click register, StatBroadcast will contact the StatInput cloud and complete your registration momentarily.

Please note that:

- Email addresses can only be registered once on StatInput. If you have already registered your address with another school/group, your registration may be rejected
- Schools/groups only need to be registered on StatInput once. After registering, visiting this link will redirect you to the StatInput login back

Please make sure you use an email address that you have access to because you will need to verify the address in a later step.

The screenshot shows the 'Register on Statinput' page. At the top, there is a navigation bar with a menu icon, 'Currently Selected Event: None', a 'Select' button, a search bar with 'tool' selected, and a search icon. The main heading is 'Register on Statinput'. Below it, a text block explains that users need to register their school for score keeping. A teal callout box contains a note: 'Please note: once you have successfully registered, you will use your email and new password to login to StatInput, not your StatBroadcast login credentials. You will also have the opportunity to create additional users for StatInput; your StatBroadcast login will not be required to use StatInput.' The form has two input fields: 'Primary User Email:' with the value 'sid@westernuniv.edu' and 'Name of User:' with the value 'Rickie Roe'. Both fields have a small user icon on the right. A blue 'Register' button is at the bottom left. Three yellow circles with hand icons point to the email field, the name field, and the Register button.

Register on Statinput

To use **Statinput** for score keeping, you'll need to register your school in the application. This will only need to be done once.

Please enter the email below of the **primary user of StatInput**; this will also be your **username** for logging into StatInput.

Please note: once you have successfully registered, you will use your email and new password to login to StatInput, not your StatBroadcast login credentials.
You will also have the opportunity to create additional users for StatInput; your StatBroadcast login will not be required to use StatInput.

Primary User Email:

sid@westernuniv.edu

Name of User:

Rickie Roe
