3. Creating a New Team in StatInput

In StatInput, individual sports seasons are referred to as 'teams'. When you start a new season, you'll need to create a new Team.

You can think of StatInput's Teams in terms of StatCrew as the same as a new directory/folder; for example 'Western Univ. 2021 Women's tennis' is a team, which would be distinct from 'Western Univ. 2022 Women's tennis' or 'Western Univ. 2021 Men's tennis'

1. Fill in your team's details

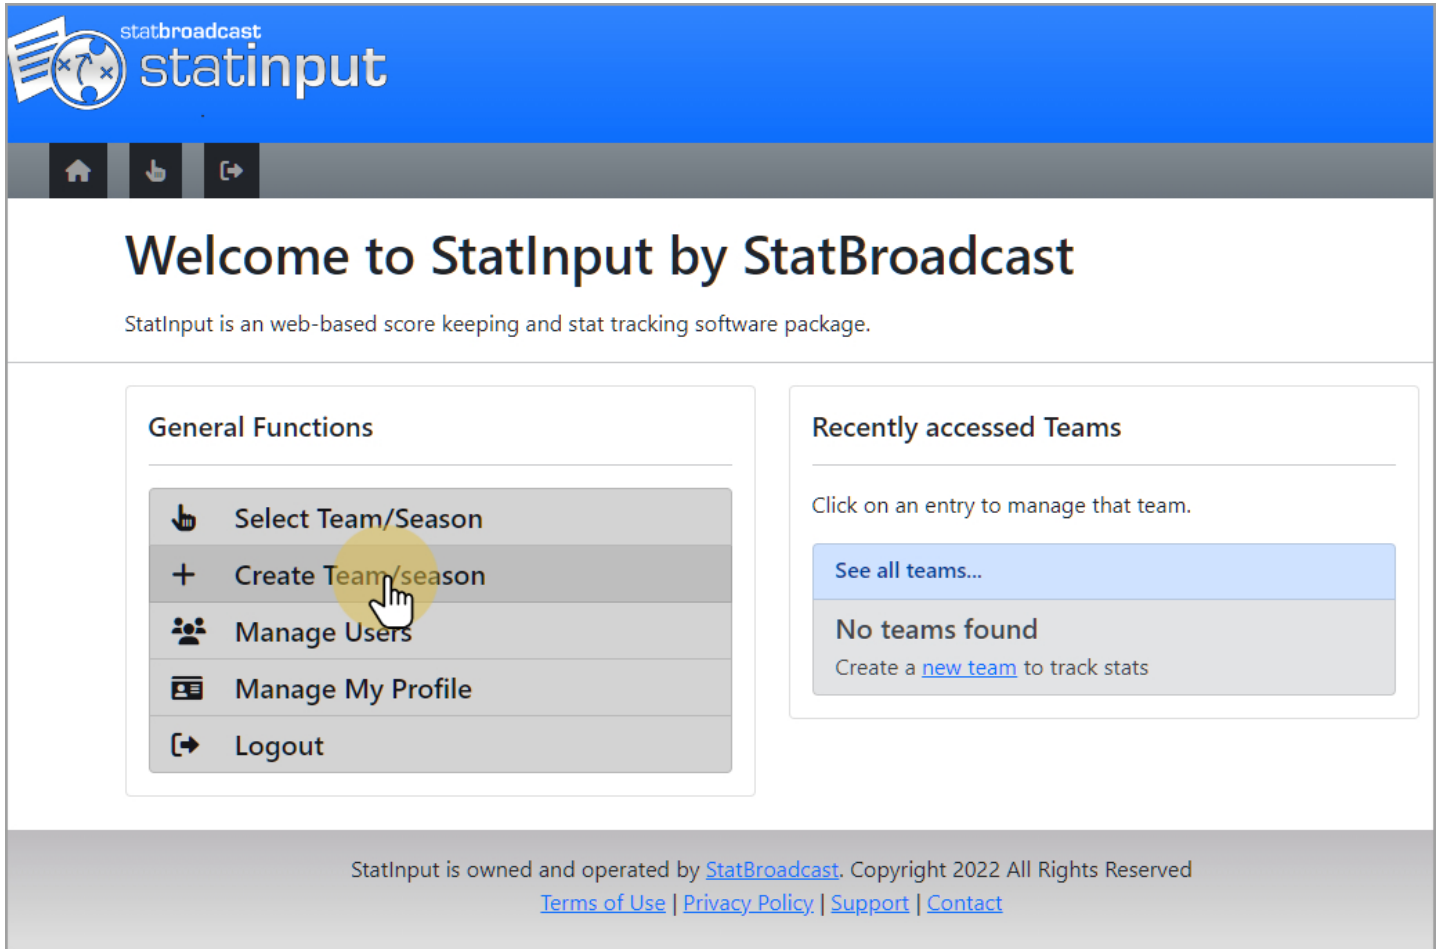

Field marked with a * (asterisk) are required

The screenshot shows the 'Create Team' form in the StatInput application. The form is set against a blue header with the 'statbroadcast' and 'statinput' logos. Below the header is a navigation bar with icons for home, back, and forward. The form fields are as follows:

- Team Name:** Text input field containing 'Western University'.
- Team Abbreviation:** Text input field containing 'WU'.
- Sport*:** Dropdown menu with 'Tennis' selected and a downward arrow.
- Gender*:** Dropdown menu with 'Womens' selected and a downward arrow.
- Academic Year/Season*:** Dropdown menu with '2022-2023' selected and a downward arrow.
- Home Venue:** Text input field (partially visible).

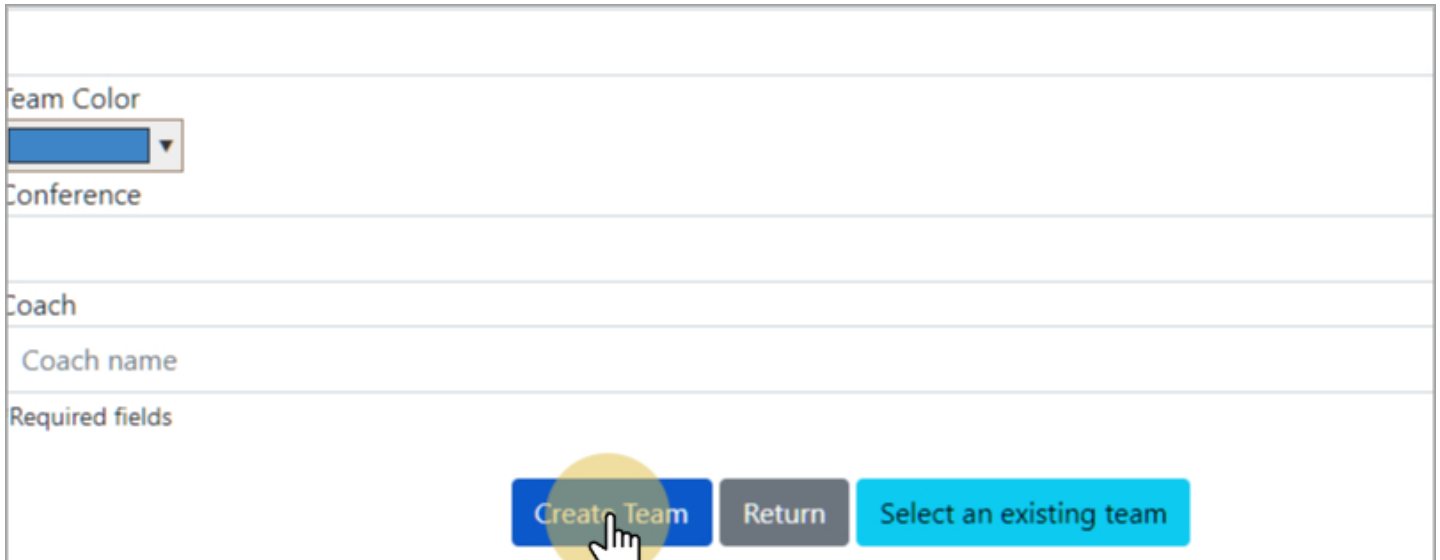

2. Click on Create Team/season to get started

The screenshot shows the StatInput web interface. At the top, there is a blue header with the 'statbroadcast' logo and the 'statinput' text. Below the header is a navigation bar with icons for home, back, and forward. The main content area features a large heading 'Welcome to StatInput by StatBroadcast' and a sub-heading 'StatInput is an web-based score keeping and stat tracking software package.' Below this, there are two main sections: 'General Functions' and 'Recently accessed Teams'. The 'General Functions' section contains a list of options: 'Select Team/Season', 'Create Team/season', 'Manage Users', 'Manage My Profile', and 'Logout'. The 'Create Team/season' option is highlighted with a yellow circle and a hand cursor. The 'Recently accessed Teams' section contains a button 'See all teams...' and a message 'No teams found' with a link 'Create a new team to track stats'. At the bottom of the page, there is a footer with the text 'StatInput is owned and operated by StatBroadcast. Copyright 2022 All Rights Reserved' and links for 'Terms of Use', 'Privacy Policy', 'Support', and 'Contact'.

3. Click Create Team at the bottom to save changes

Once your team is created, it will be automatically 'selected' so that you start managing it, such as creating rosters, matches and tracking stats.

4. Team created successfully!

Your team has been created and is automatically selected as the currently active team. You can now build a roster, add matches and start scoring.
