

5. Create a New Match

This guide will step you through creating a new match, including configuring the participating teams and their rosters.

Click on Add Match

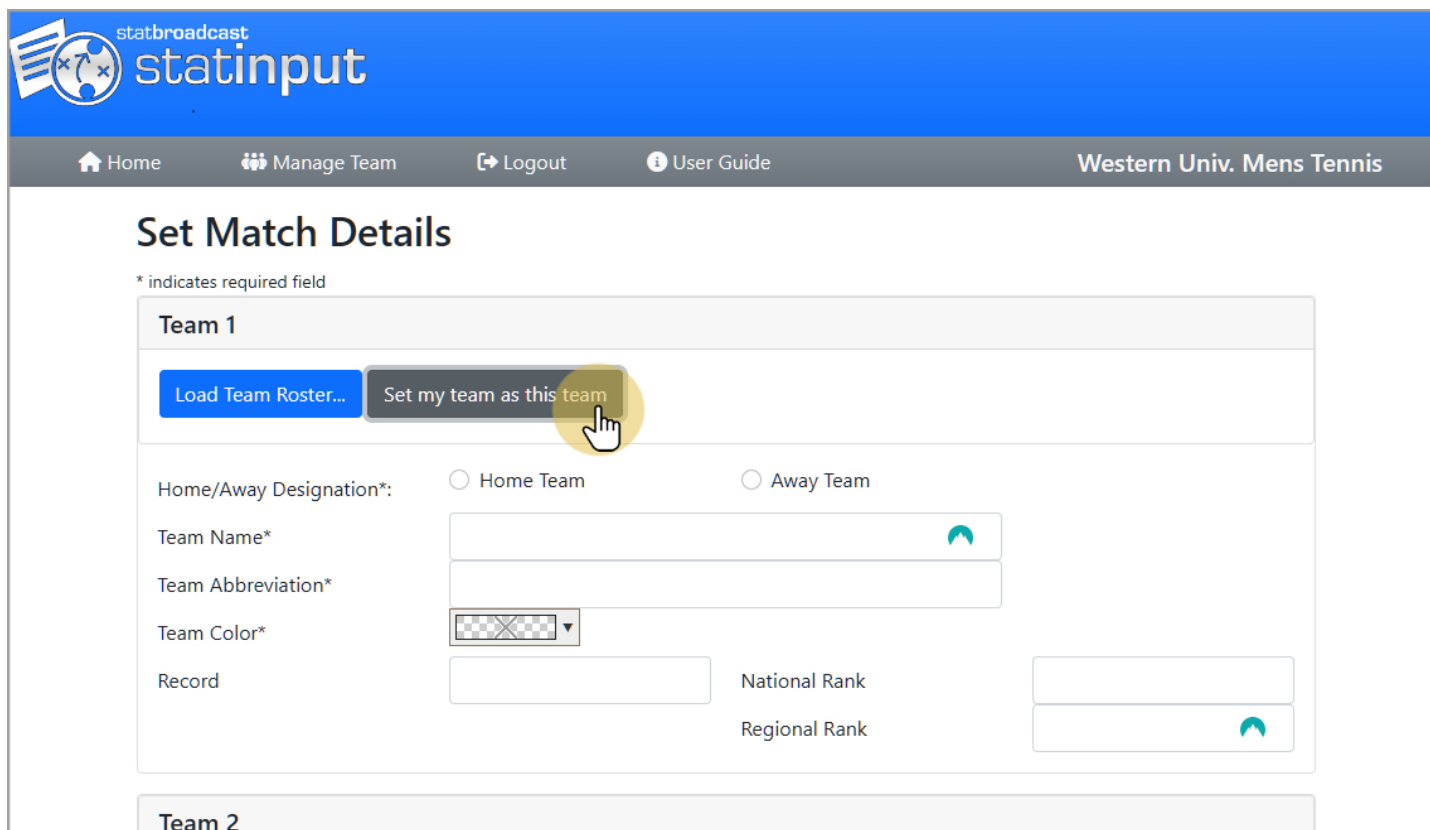

The screenshot shows the 'statbroadcast statinput' logo at the top left. A navigation bar contains links for Home, Manage Team, Current Match, Logout, and User Guide. The page title is 'Western Univ. Mens Tennis'. The main heading is 'Manage team: 2019 Western Univ. Mens Tennis'. Below this is a message: 'To start scoring, select a match to begin using the Manage Matches tool.' A menu titled 'Team Functions' lists several options: Edit Team Details, Manage Roster, Manage Current Match, Manage Matches, Add Match, Delete (Disable) Team, and Archive Team. The 'Add Match' option is highlighted with a yellow circle and a hand cursor icon. Below the menu is a 'Reporting Functions' section with a 'Match Reports' link. A URL fragment 'www.statinput.com/.../match.php?add=1' is visible at the bottom left of the screenshot.

To use your team as a participant, click 'Set My Team as This Team'

The stored details of your team, such as name, abbreviations and colors, will be loaded into either Team 1 or Team 2. Your stored roster will also be assigned to the team.

If you do not wish to use this functionality, you can manually set the Team details. Please note that if you manually set a team's details, you will have to create their roster in the next step.

Set your opponent or second participating team

You'll need to set the second participating team in the match. You have the option of loading an existing team roster or manually entering in the team data (in which case you will be prompted to create the roster after the match or game is created and saved. Note: if you manually enter the roster into the match or game, it will not be available for use in subsequent matches or games).

To activate StatBroadcast Live Stats, Click the 'Find Event' button

StatInput can automatically broadcast live stats to a StatBroadcast event, but you must activate this feature and have a corresponding event scheduled in StatBroadcast.

If you know your event ID already or if you need to search, click on the 'Find a StatBroadcast Event' button to continue.

The 'Schedule new StatBroadcast Event' button will open the StatBroadcast admin site in a new window.

Singles Points*

Make adjustments to the Dual Rules and click 'Save Match'

Please review the dual scoring rules. If your division plays to a different number of points, make the necessary number of adjustments under either Singles or Doubles.

Note: if you will be playing extra 'exhibition' doubles or singles as part of your Dual, you will need to adjust the number of matches but not the number of points; you will also have the ability to add additional exhibition courts later.

John	Smith	✓
Bill	Jones	✓

If no roster exists, press 'Add Player' to create at least six players

You must have a minimum of six active players on each team's roster to begin a match

The screenshot displays the 'Add Player to Eastern State Roster' modal form. The form includes a toggle for 'Player is active' (checked), and input fields for 'First Name*' and 'Last Name*'. It also features ranking sections for 'National' and 'Regional' play, with sub-sections for 'Singles' and 'Doubles Rank'. A 'Default Dual Position' section includes dropdowns for 'Singles' and 'Doubles'. The modal has 'Cancel' and 'Save' buttons at the bottom. In the background, a list of players (Butch, Ritchie, John, Bill, Carl, Phil) is visible, along with a '+ Add Player to Eastern State Roster' button and a 'Return to Match Manager' button.

Once roster editing is complete, press 'Return to Match Manager' to finish
