## 3. Select whether to use pre-set pairings

If either team's rosters already have default singles and doubles positions saved for players, you can click Yes and those players will be automatically assigned to courts. *You will have a chance to edit these before saving your changes.*

If you would prefer to set your pairings manually, click 'No'.

**Note: If there are no default positions saved for either team's rosters, you will not see this prompt.**
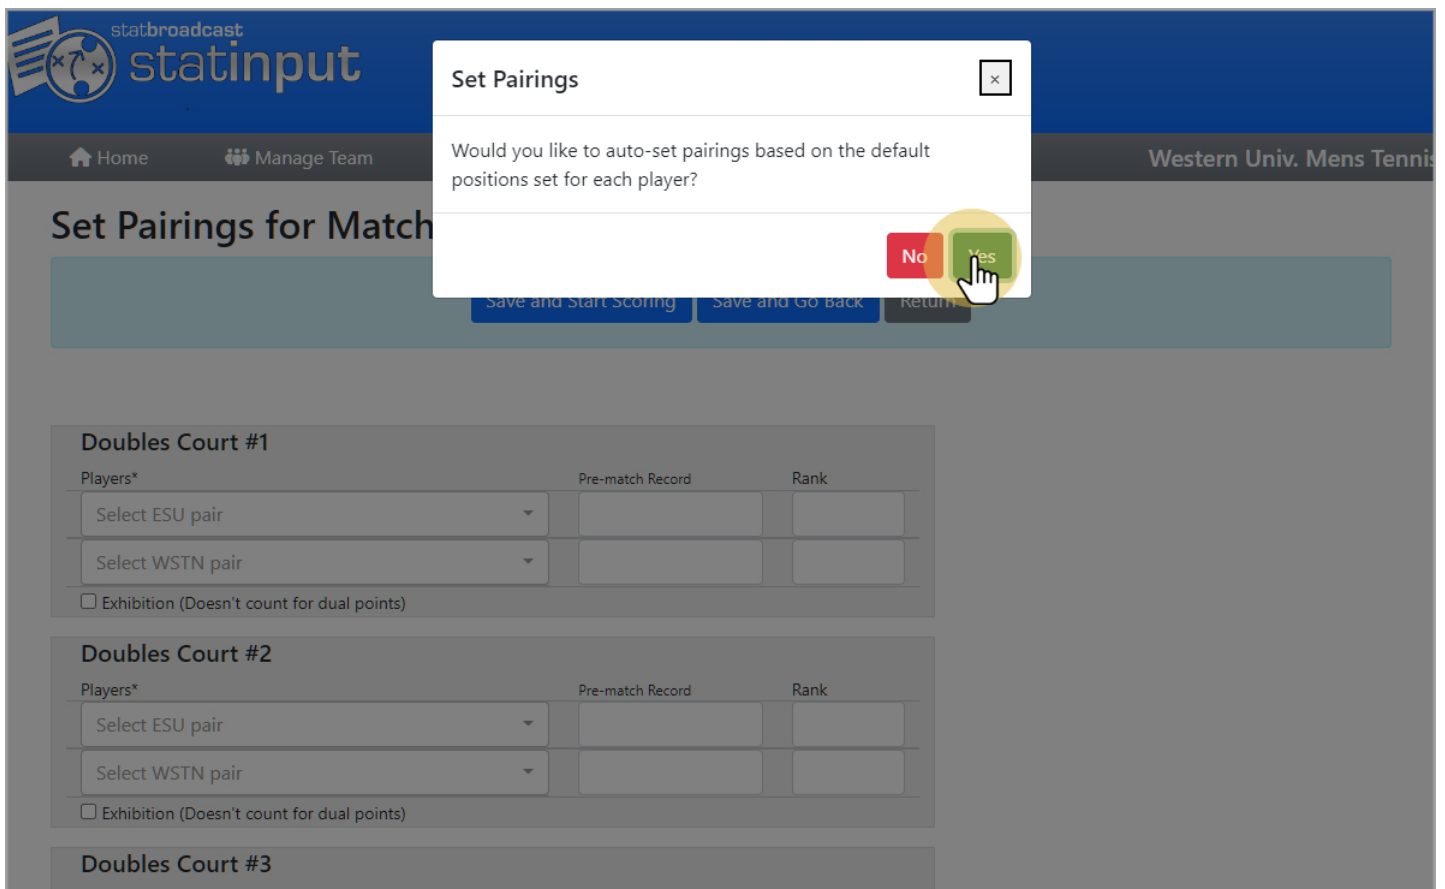

## 4. Set Doubles Pairings

To set a pairing, click on a Court's dropdown list and select two players to assign to the pair

## 7. To save changes and begin the match, click 'Save and Start Scoring'

This will save your changes and take you to the Match Scoring Screen.

*Please note, before you can begin the match, the app will check to make sure you have assigned two doubles players from each team and one singles player from each team to each of the courts for the match. If it finds any missing players, or players who are listed on more than one court, you will not be able to proceed until that has been corrected.*
