## 7. Set the Bouts for a Match

If you select a wrestler that is higher in weight class than the bout, or more than one weight class below, you will receive a warning. Note: you may still continue and score the bout even with the weight class warning triggered.

The screenshot shows the 'Set Bouts for Match W' interface with a warning dialog box overlaid. The dialog box contains the following text:

Warning -- The wrestler you have selected has a higher weight class (157) than the weight class for this bout (133)

The interface displays six bout configuration panels, each with a 'Wrestler\*' dropdown, 'Pre-match Record', 'Rank', and 'Weight' fields. The weight class for each bout is indicated in the header of the panel.
