

9. Using the Action Editor to make changes

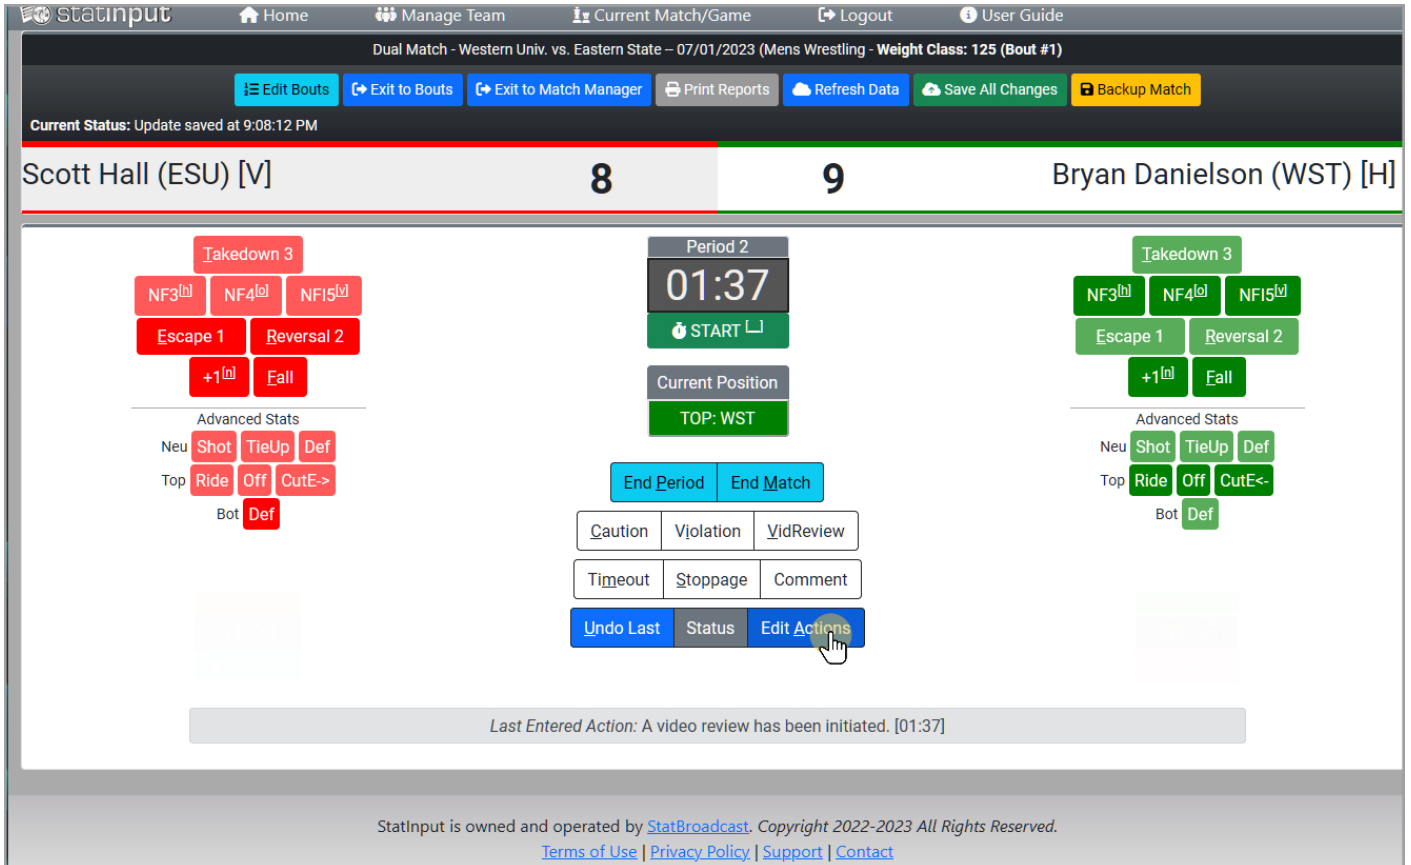

Mistakes happen. If you need to edit, delete or add actions to a bout, the Action Editor will be used to accomplish that.

Please exercise care when using the Action Editor, as it does not strictly enforce wrestler positions as the live scoring functionality does; in editing or adding actions, you can create actions that do not make sense within the context of the match based on the positions of the wrestlers at the time.

Enter the Action Editor

Click the Edit Actions button to access the Editor.

Note that while in the Action Editor, you cannot simultaneously score the match live and all running clocks will be stopped.

The screenshot shows the StatInput interface for a Dual Match between Scott Hall (ESU) [M] and Bryan Danielson (WST) [H]. The score is 8 to 9. The interface includes a navigation bar with options like Home, Manage Team, Current Match/Game, Logout, and User Guide. Below the navigation bar, there are buttons for Edit Bouts, Exit to Bouts, Exit to Match Manager, Print Reports, Refresh Data, Save All Changes, and Backup Match. The current status is updated at 9:08:12 PM. The match details show Scott Hall (ESU) [M] with a score of 8 and Bryan Danielson (WST) [H] with a score of 9. The interface is divided into three main sections: the left side for Scott Hall's actions (red buttons), the center for match controls (grey and green buttons), and the right side for Bryan Danielson's actions (green buttons). The center section includes a timer for Period 2 at 01:37, a START button, a Current Position button showing TOP: WST, and buttons for End Period and End Match. Below these are buttons for Caution, Violation, VidReview, Timeout, Stoppage, and Comment. At the bottom of the center section are buttons for Undo Last, Status, and Edit Actions. A notification at the bottom of the interface states: "Last Entered Action: A video review has been initiated. [01:37]". The footer of the interface contains the text: "StatInput is owned and operated by StatBroadcast. Copyright 2022-2023 All Rights Reserved. Terms of Use | Privacy Policy | Support | Contact".

Select a Period

You can select the period you would like to edit using the dropdown list at the top. By default, the Action Editor always opens into the current period.

The screenshot shows the StatInput interface for editing a wrestling bout. At the top, there's a navigation bar with links for 'Manage Team', 'Current Match/Game', 'Logout', and 'User Guide'. Below that, a header indicates the match: 'Dual Match - Western Univ. vs. Eastern State - 07/01/2023 (Mens Wrestling - Weight Class: 125 (Bout #1))'. A toolbar contains buttons for 'Edit Bouts', 'Exit to Bouts', 'Exit to Match Manager', 'Print Reports', 'Refresh Data', 'Save All Changes', and 'Backup Match'. The current status is 'Update saved at 9:08:12 PM'. The main display shows 'Scott Hall (ESU) [V]' with a score of 8 and 'Bryan Danielson (WST) [H]' with a score of 9. The 'Edit Actions' panel is open, featuring a 'Recalc Bout Score' button and an 'Exit Editor' button. A dropdown menu is open over the 'Select Period to edit:' field, showing 'Period 1' and 'Period 2' options. Below the dropdown, there's a 'Show 25 entries' filter and a search box. A table lists actions with columns for 'Clock', 'Team', 'Action', and 'Pts'. The table shows several entries, including 'startperiod', 'position', 'score', and 'review'. At the bottom, it says 'Showing 1 to 6 of 6 entries' and has 'Previous', '1', and 'Next' navigation buttons.

Clock	Team	Action	Pts

01:43	H	score	Near Fall 3PT scored by Danielson (WST) - 3PT
01:37		review	A video review has been initiated.

Edit an existing action

When available for an action, click the Blue pencil icon in that action's row to access the popup window for that action's options.

Note that not all actions can be edited; actions that cannot be edited will not display a blue icon in its row.

The Edit function will prompt you with a window showing you the text of the original play and the options that can be changed for that action.

Each type of action will display different options that can be changed for that specific action.

Note that you cannot change an action type (for example, change a score to a violation). To change an action type, delete the original action and insert a new one.

The screenshot shows the StatInput interface with an 'Action Editor' modal window open. The modal is titled 'Score' and contains the following fields and options:

- Original Action:** Takedown scored by Hall (ESU) - 3PT
- Time of match:** 02:48
- Scoring Wrestler/Team:** Hall [ESU] and Danielson [WST]
- Score Type:** Takedown, NF3, NF4, NF15, Escape, Reversal, +1
- Takedown Type(Optional):** A dropdown menu with the instruction: 'Select the type of takedown from the list or type one in for custom move'
- Starting Position:** TOP: Hall [ESU], Neutral, TOP: Danielson [WST]
- Ending Position:** TOP: Hall [ESU], Neutral, TOP: Danielson [WST]
- Buttons:** Enter and Cancel

The background interface shows a table of match events with columns for 'Clock', 'Te', and 'Pts'. The current event being edited is at 02:48. The table shows a sequence of events from 00:00 to 03:00.

Inserting new Actions

To insert a new action into the match, use the green buttons on each row to choose to enter an action either *before* or *after* the original action

Delete an Action

To delete an action from the period, click the corresponding red trash can icon for the action and confirm that you wish to delete it.

Note that deleting an action may result in the positions of the wrestlers being out of context for the match (for instance if you delete a takedown but leave a corresponding escape)
